

IN THE SPECIFICATION

Please replace the paragraph beginning at page 41, line 22 to page 42, line 5, with the following rewritten paragraph:

[0064] Example 1-2

An aqueous dispersion with 11.95% solid content was obtained in the same way as in Example [[1]] 1-1 except that PVA-2 (polymerization degree: 1700, saponification degree: 98 mol%, ethylene content: 5 mol%) was used in place of PVA-1 used in Example 1-1, and a coating solution was prepared. The evaluation results are collectively shown in Table 2.

Please replace the paragraph at page 42, lines 6-12, with the following rewritten paragraph:

[0065] Example 1-3

An aqueous dispersion with 11.9% solid content was obtained in the same way as in Example [[1]] 1-1 except that PVA-3 (polymerization degree: 1000, saponification degree: 99.2 mol%, ethylene content: 7 mol%) was used in place of PVA-1 used in Example 1-1, and a coating solution was prepared. The evaluation results are collectively shown in Table 2.
